

## IF YOU WERE GONE

Those tears you cried, fooled them right  
But it won't be too long till you're sorry again  
And if you cross that line, one more time  
Might lay your head neath' six feet of Aquilla sand

### CHORUS

If you were to ask me, your life for this song  
I don't know you well enough to miss you if you were gone, gone,  
gone  
If you were gone.

I know you tried, to feed your lies  
But Demons don't just go away  
They haunt our lives, their full of pride  
And pills won't help you change their names

### CHORUS

Those tears you cried, fooled them right  
But it won't be too long till you're sorry again  
And if you cross that line, one more time  
Might lay your head neath' six feet of Aquilla sand

### CHORUS

I know you tried, to feed your lies  
But Demons don't just go away  
They haunt our lives, their full of pride  
And pills won't help you change their names

### CHORUS
