

MISERY, MY ISSUES, AND ME

I tried to warn you, I got issues
I tried to warn you not to get involved.
But now you've gone and made me miss you
You've gone and punched a hole in my wall
I tried to warn you to let me go
But my issues up and followed you home
They don't like to be alone you see

CHORUS

Misery, my issues and me
We don't have much, but we sure like to dream
Misery, my issues and me
We don't have much, but we sure like to dream,
yes we do

I tried to warn you, about my issues
I let you see things I usually hide
Then you went and let me kiss you
But soon all I'll do is make you cry
I tried to warn you to let me go
But my issues up and followed you home
Now we're both alone, you and me

CHORUS
